we save you space

Welcome to the world of rack-art™!

What is rack-art™?

Rack art™ is a unique and flexible system to store bottles in a space saving way.

Racks from rack-art™ are the ideal and multifunctional option to store bottles. All wine bottles are in a horizontal position at the correct angle. Every label can be read and perfect presentation is guaranteed.

The innovative and patented connector system allows the storage of up to 480 bottles in the smallest space. (just more than 1 m²)

The revolving Carousel models are the perfect opportunity for use by professionals or large-scale collectors. If there is limited space you can find a perfect solution with the wall models (starting with 6 bottles).

All models from rack-art™ have one thing in common: the most efficient space-saving storage of bottles. The best thing about rack-art™: if you need more space on your shelf, it can easily be extended at any time.

Sustainability

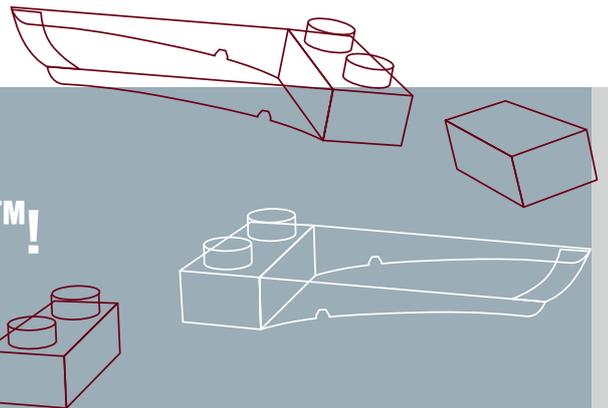

All rack-art™ bottle racks are made of **100% recycled** polypropylene (PP) if wished. All our racks are therefore 100% recyclable and have the same ecological footprint as paper. We treat resources with care by reusing our materials.

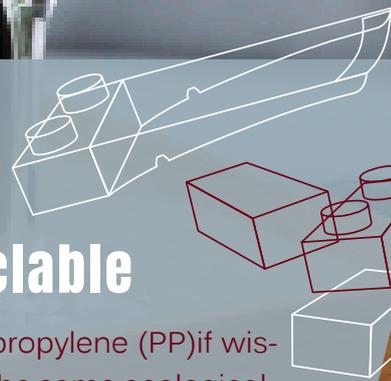

Saving resources does not end with basic material. Rack-art™ helps you to save space and weight due to the use of PP.

How can I become part of the worldwide rack-art™ family?

The answer to the most important question: rack-art™ ist available online in our webshop (<https://rack-art.com/rackart-shop/>) and at a **dealership in your area**.

Please find more information on our website 24/7. We are happy to answer your inquiries at any time: Contact us at: www.rack-art.com or hello@rack-art.com

100% recycled und 100% recyclable

All rack-art™ bottleracks are made of 100% recycled polypropylene (PP) if wished. All our racks are therefore 100% recyclable and have the same ecological footprint as paper. The material will be recycled and put to use of as a new rack again. That's rack-art™'s philosophy – we treat resources with care by reusing our material and not felling more trees or casting steel using a lot of energy.

Save energy and space with unique and innovative rack-art™!

Enjoy and create your solution.

Should you cease to use your rack in the future for whatever reason ever, just send it right back to us and we'll recycle it, thus avoiding the use of fresh resources.

Enjoy your rack-art™!

Model carousel

Our bottlecarousels are true masters of space efficiency.

Caroussel

Up to 480 bottles can be stored and presented using minimal space.

With a capacity of up to 280 bottles the revolving racks are also available as mobile stands that can be moved and positioned flexibly anywhere in your show area. Carousels with a capacity of more than 280 bottles will need to be fixed to the ceiling for additional support.

Mobile Carousel (KF2, KF3, KF4)

The mobile carousel stores up to 280 bottles in an utmost space-saving and flexible manner. The rack is mounted on a stable base equipped with high-quality steel rollers enabling it to be effortlessly moved around. This product is ideal for wine bars.

Stationary Carousel (KD2, KD3, KD4, KD5)

This model will store the most bottles. The installation is as simple as can be – the carousel is simply clamped between floor and ceiling. No drilling or screws necessary! – Neither in the floor, nor in the ceiling. This carousel stores up to 480 bottles on a footprint of only approx. 1 sqm.

Tabletop Carousel (KT2/c/cc, KT3/c/cc)

The tabletop model with a capacity of between 48 and 72 bottles serves as a perfect means of presentation in your home as well as in restaurants or wine bars. It can easily be positioned on any piece of movable furniture.

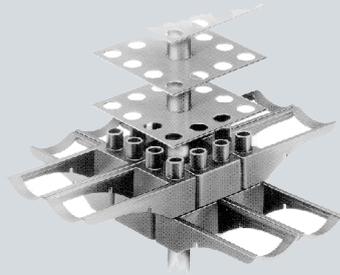

- Perfect display for retailers
- Ideal for wine bars and bound to impress at presentations
